Dear Chuck:

This is a brief note following your conversation Tuesday with David Weinberg and myself. During that conversation, we explained that Gulf and Bunker Limited Partnership are actively negotiating a settlement, and we requested an extension of time for filing the asbestos and PCB plans which EPA requested in its Section 106 Order of last October.

We agreed that the deadline would be extended one week (through March 24, 1990) and David and I would speak with you on Friday to provide you with our clients' best estimate of a date by which a decision on the settlement would be known.

Sincerely yours,

Douglas S. Little
